Professional Profile

Many years of experience as a Professor of Computer Science and Programmer it allows me to follow in an independent way both the teaching of computer science addressed to the students of the Institutes present in Italy and the activities of development of IT applications realized using multiple programming languages and technological platforms. From 2015 I also write books available in the Amazon and Iliolibro multimedia channels. The professional know-how acquired over time, the good command of the English language, the excellent knowledge of the main IT applications dedicated to the job and the achievement of the Master in Innovative Management of Healthcare Organizations are the skills that complete my professional and educational background .

Professional Experience

 Freelance
 Author

2015 – Presente

From 2015 until today I dedicate myself to writing books, freelance public using the following multimedia channels:

- Amazon: the works are available at the Amazon Store as Indie Author.
- Iliolibro: the books are present in the web page of "Iliolibro" as SelfPublisher.

In addition to this, since 2011 I have been involved in developing Android applications available within the Google Play Store and traceable under the name "Andrea Bianchini". See also my codes on CodeOcean:
